THE CERTIFICATION AND BUSINESS ENHANCEMENT APPROACH

Organizations today are met with a variety of operational and business challenges. External forces, like competitors and regulatory bodies, also add a secondary level of pressures that must be anticipated. Additionally, both B2B and B2C firms are experiencing a large influx of customer data, across multiple touchpoints. The dividing factor between those who are successful and those who are not, is how they analyze and use that data for business enhancement. At SGS, we have developed a variety of solutions to not only meet these needs, but establish more efficient and profitable ways of working. Using our 140 years of experience and operational data set, we partner with clients to gain intelligent insights into their current business functions while simultaneously strategizing for the future. To meet the needs of our current customers and provide effective and modern solutions to current and future business issues, we offer three pillars of insights driven, customizable products and solutions.

SGS BUSINESS BENEFITS

Deliver innovative solutions and services that enhance businesses

Offer customized solutions, driven by proprietary insights

Provide services fundamental to ongoing success and sustained growth

Enable continous improvement

Transform value chains

THE BUSINESS ENHANCEMENT PLATFORM

For decades, SGS has been known as the global leader in certification, working with clients in virtually any sector. This deep and broad experience in quality control management, regulatory compliance, and training has resulted in a staggering array of data points across industries. Utilizing this dataset, we have evolved our service offerings to include Business Enhancement—the process of transformation that improves or increases the value of an organization's people, processes, product or service. Our Business Enhancement solutions offer the most up to date, practical insights to help you achieve your goals and ultimately BE the Benchmark.
The security of information systems and business-critical information needs constant managing to ensure your operational continuity and data protection. ISO 27001 Information Security Management Systems certification allows you to stand out from the competition through strong information security measurement.

Based on the principles of confidentiality, integrity and availability, the ISO 27001 covers:

INFORMATION SECURITY POLICIES

INFORMATION SECURITY ASPECTS OF BUSINESS CONTINUITY MANAGEMENT

COMPLIANCE

PHYSICAL AND ENVIRONMENTAL SECURITY

OPERATIONS SECURITY

THE BENEFITS

Enhances credibility

Demonstrates integrity of your systems
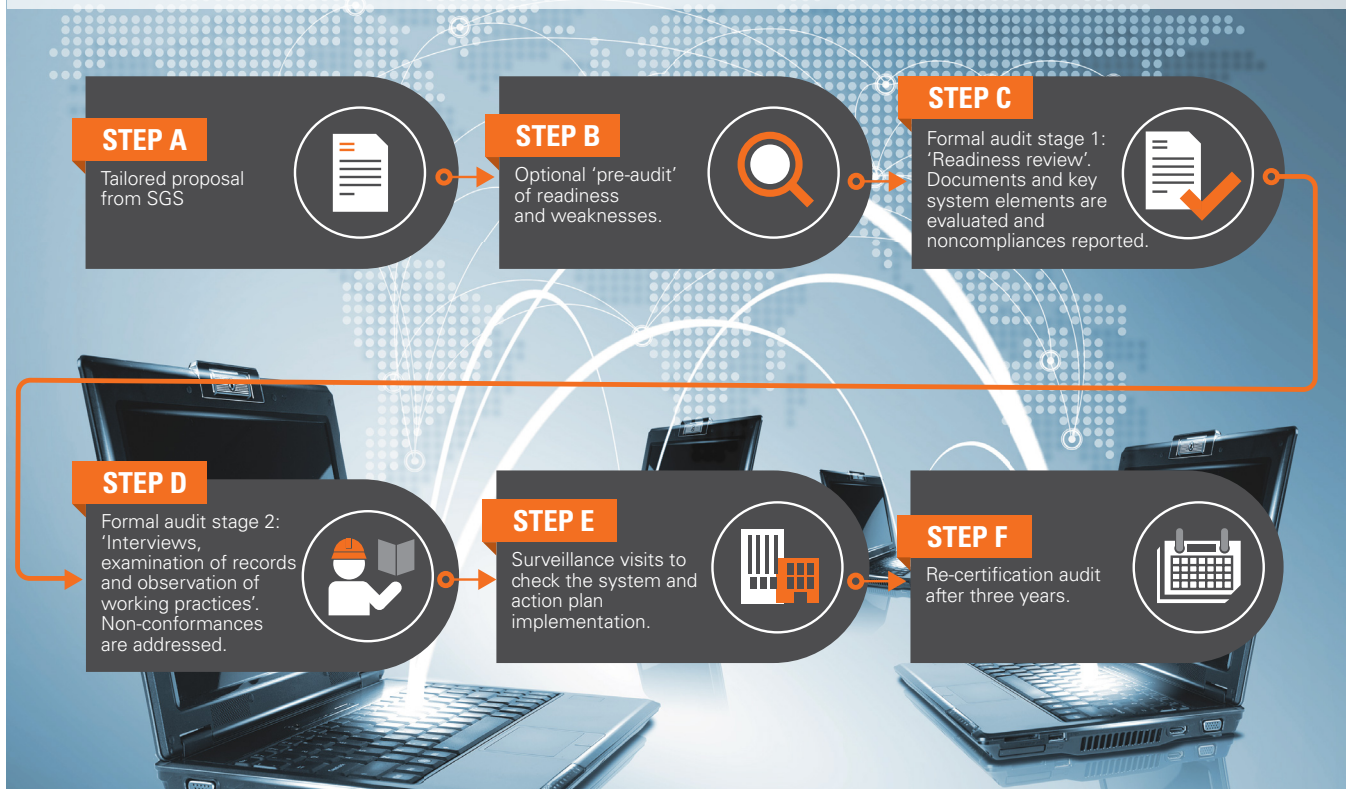

Transform business culture

Create new business opportunities with security conscious customers

Improve employee work ethic and confidentiality

HOW THE CERTIFICATION PROCESS WORKS

STEP A
Tailored proposal from SGS

STEP B
Optional 'pre-audit' of readiness and weaknesses.

STEP C
Formal audit stage 1: 'Readiness review'. Documents and key system elements are evaluated and noncompliances reported.

STEP D
Formal audit stage 2: 'Interviews, examination of records and observation of working practices'. Non-conformances are addressed.

STEP E
Surveillance visits to check the system and action plan implementation.

STEP F
Re-certification audit after three years.

WHY SGS?

SGS is the world's leading inspection, verification, testing and certification company. SGS is recognized as the global benchmark for quality and integrity. With more than 95,000 employees, SGS operates a network of over 2,400 offices and laboratories around the world.

Enhancing processes, systems and skills is fundamental to your ongoing success and sustained growth. We enable you to continuously improve, transforming your services and value chain by increasing performance, managing risks, better meeting stakeholder requirements and managing sustainability.

With a global presence, we have a history of successfully executing large-scale, complex international projects. Our people speak the language, understand the culture of the local market and operate globally in a consistent, reliable and effective manner.
