

GLOBAL MOBILISATION SOLUTIONS TO EFFICIENTLY MANAGE YOUR WORKFORCE & LOGISTICS PROJECTS

ISSUED – MARCH 2017

SGS TECHNICAL STAFFING SERVICES – FINDING THE RIGHT PEOPLE FOR CHEVRON

SGS technical staffing services has been providing manpower services to Chevron since 2002, ensuring that specialized contract technical staff are assigned on a trans-national basis in accordance with project schedule requirements.

Large-scale recruitment poses logistical issues for any company. Bringing in extra staff and resources for short periods can be costly, both in time and money. Our technical staffing service understands the level of commitment and complexity which is needed to handle such large scale projects. With this in mind, we offer bespoke workforce and project management solutions to our clients who are searching for a reliable partner to manage their entire project.

The Chevron project required personnel to be assigned from Fabrication through to start-up. SGS managed the successful execution of all logistics for Chevron including: flights, visas, work permits, meet & greet services, accommodation, transportation and family welfare link. SGS ensured that all contractors attended pre-mobilization inductions, HSE briefings and training prior to assignment.

SGS TECHNICAL STAFFING SERVICES INCLUDE;

- Full range of market leading health and travel insurances

- Dedicated SGS team specifically for the duration of the project
- Contract management
- Workforce planning
- Dedicated assignment support for contract employees
- Smooth and efficient payment of employees across the globe
- Local and global payroll capabilities
- 24-hour emergency support and advice services
- High standard of administration, timely and accurate processing of invoices and purchase orders
- Expertise and know-how in dealing with local and global regulations

ABOUT THE CHEVRON PROJECT

Over 200 qualified technical personnel were assigned across multiple sites;

- East Asia (Korea and Japan)
- USA
- West Africa (Angola, Congo, Gabon, Nigeria)
- South America (Argentina)
- Europe (UK, Holland, France, Italy, Czech Republic)
- UAE (Abu Dhabi and Dubai)

All contractors have been assigned through the local SGS companies to ensure a fully tax compliant solution for Chevron.

SGS provided highly skilled technical professionals for all aspects of project delivery;

- Design review Engineers
- HSE personnel
- QA/QC Inspectors for Fabrication and subsea facilities (all disciplines)
- Project Controls (Planning, QS and Cost)
- Clerical and administrative support staff

Personnel were recruited from various locations;

- USA and Canada
- Europe (UK, France and Italy)
- Korea
- Malaysia and Singapore
- India
- Angola
- South Africa
- Trinidad & Tobago
- Australia and New Zealand
