

ISO 14001:2015 ENVIRONMENTAL MANAGEMENT SYSTEMS INTRODUCTION TRAINING COURSE

COURSE DESCRIPTION

Learn about the purpose and requirements of ISO 14001:2015 so that you can report on the effectiveness of the Environmental Management System implementation.

LEARNING OBJECTIVES

BY THE END OF THIS COURSE, YOU WILL BE ABLE TO:

- Explain the purpose and intent of the revised series of management systems standards
- Understand the application of the principles of environmental management
- Describe the revisions to ISO 14001:2015

PRIOR KNOWLEDGE

Before starting this course, it is recommended that learners have prior knowledge of:

- Management systems and understand the Plan-Do-Check-Act (PDCA) cycle
- Knowledge of the concepts of environmental management and the relationship between an organisation's activities, products and services and environmental impacts;
- Commonly used environmental management terms and definitions, as given in ISO 14001
- The requirements of ISO 14001:2004

WHO SHOULD ATTEND

Anyone who requires knowledge of ISO 14001:2015 or needs to develop their skills in auditing an environmental management system to improve their organisations environmental performance.

COURSE CONTENT

- Introduction to environmental management, background and relationship with other management system standards
- High level framework, clauses, process approach and risk-based thinking
- Process evaluation and improvement to control and reduce undesired effects from internal and external issues
- Planning for risk to ensure the management system will achieve its objectives
- Leadership commitment and responsibilities
- Support and what's needed for the management system to operate effectively
- Performance review and monitoring to identify any actions needed for the correction and continual improvement of the management system
