

ISO 14001:2015 ENVIRONMENTAL MANAGEMENT SYSTEMS IMPLEMENTATION TRAINING COURSE

COURSE DESCRIPTION

Learn about the requirements of ISO 14001:2015 and how to plan for the implementation of the Environmental Management System (EMS) in your organisation.

LEARNING OBJECTIVES

BY THE END OF THIS COURSE, YOU WILL BE ABLE TO:

- Follow a systematic approach to establish processes that will improve your organisation's environmental performance
- Incorporate the Plan-Do-Check-Act (PDCA) model and risk-based thinking into the management system processes so that you can address risks and make the most of any opportunities
- Create a culture where employees are encouraged to take an active role in protecting the environment by contributing to sustainable practices that reduce the organisation's environmental impacts and increases its operating efficiency
- Successfully plan and implement a management system based on an ISO standard
- Manage the implementation and the project team using project management principles and techniques

- Ensure changes to processes and procedures are communicated and everyone is trained so they can support and contribute to the management system objectives
- Complete an objective evaluation of your organisation's current performance, to ensure the processes are in place and operating as intended
- Plan and prepare activities in readiness for the certification audit

PRIOR KNOWLEDGE

Before starting this course, it is recommended that learners have prior knowledge of:

- The concepts of environmental management and its relationship to the organisation's activities, products, services and environmental impacts
- Commonly used terms and definitions as provided in ISO 14001:2015 environmental management systems guidance and ISO 14004:2016 environmental management systems general guidelines on implementation

WHO SHOULD ATTEND

Anyone who requires knowledge of the basics of ISO 14001:2015 and needs to understand how to implement the management system within their organisation.
