

ISO 45001:2018 OCCUPATIONAL HEALTH AND SAFETY MANAGEMENT SYSTEMS INTRODUCTION TRAINING COURSE

COURSE DESCRIPTION

Learn about the requirements of ISO 45001:2018 so that you can implement, manage and continually improve Occupational Health & Safety (OH&S) performance in your organisation.

LEARNING OBJECTIVES

BY THE END OF THIS COURSE, YOU WILL BE ABLE TO:

- Prevent work related injury and ill health to employees, by identifying and controlling hazards, that enable the organisation to provide a safe and provide a healthy workplace
- Incorporate the Plan-Do-Check-Act (PDCA) model and risk-based thinking into the management system processes so that you can address risks and make the most of any opportunities
- Create a health and safety culture, where employees are encouraged to take an active role in their own OH&S

WHO SHOULD ATTEND

Anyone who requires knowledge of the basics of ISO 45001:2018 or needs to develop their skills in managing Occupational Health and Safety for the workplace.

No prior knowledge is needed.

COURSE CONTENT

- Introduction to occupational health & safety, background and relationship with other management system standards
- High level framework, clauses, process approach and risk-based thinking
- Process evaluation and improvement to control and reduce undesired effects from internal and external issues
- Planning for risk to ensure the management system will achieve its objectives
- Leadership commitment and responsibilities
- Support and what's needed for the management system to operate effectively
- Performance review and monitoring to identify any actions needed for the correction and continual improvement of the management system
