UPDATE ON INTERNATIONAL STANDARDS & REGULATIONS FOR JUVENILE PRODUCTS

SGS JUVENILE PRODUCT SAFETY FORUM

October 11, 2021 | Presenter: Catherine Follin-Arbelet – Catherine.FollinArbelet@sgs.com

1 - Do you have an updated for the phase out date for ECER44 of Sept23 please?

A: Child seats approved according to R44.04 will no longer be allowed to be sold in the EU from 1 September 2023 (there should be a possibility within the EU for a transitional period of several months to 1 year for seats that are already in stocks at dealers on 1 September 2023).

2 - Since EN 13210 Standard has been split into 2 different parts, Has product labelling split on two standards too? Do we have to say product complies with EN 13210-1 & EN 13210-2?

A: Single harnesses and reins will bear the number of EN13210-1 only, and harnesses incorporating a backpack will be marked only with the number of EN13210-2, and year. The mention is required on the product and in purchase information.
